DIRECTIONS FOR ORDERING

Write plainly and give explicit directions as to address and mode of shipment. Shipments will be forwarded exactly as directed, but when we have no instructions, they will be forwarded by the shortest and safest route. We recommend that all herbaceous plants be shipped by express.

All orders are accepted subject to previous sale and the following terms and conditions:

PRICES. Prices in this catalogue cancel all previous lists and are subject to change without notice. Our prices are for local delivery. Arrangements can be made for distance deliveries by motor trucks of full truck loads if desired.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged for according to the value of the trees chosen, irrespective of catalogue list price. The prices stated herein are for stock of our selection.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility. Accounts will be due in 30 days.

FORWARDING AND SHIPPING

SHIPPING SEASON opens about March 1 in the spring and August 1 in the autumn.

INSPECTION AND FUMIGATION. Our stock is regularly inspected and a certificate will be sent with each shipment. Stock will be fumigated when requested or if the state laws require it.

GUARANTEE AND CLAIMS. All goods are guaranteed true to name, full count, up to grade, and in good condition when shipped. Any plant which is untrue to name will be replaced. As we have no control over its usage after it leaves our hands, properly packed and in good condition, we cannot guarantee the life of stock. Claims must be made within five days after receipt of goods. Stock delivered as per order and in good condition is not returnable.

Address all correspondence and orders not to individuals, but to

AN OPPORTUNITY

Good planting is an investment for both pleasure and profit. No other investment which man can make will yield such dividends of satisfaction as the thrill of pleasure which springs into his heart at the sight of his home surrounded by rich evergreens, lovely shrubs, and noble trees. Besides, such plantings have an ever-increasing economic value of great importance. **Every season you let go by without planting is a loss.**

AN INVITATION

To the numberless lovers of beautiful trees and shrubs, we extend a most cordial invitation to visit our Nurseries at any time. Towson Nurseries are worth a visit every day in the year. Each day is different and all are beautiful.

We are located on the York Road, opposite the State Normal School, 7 miles from Baltimore, and are readily accessible by motor and electric car. Here we own 125 acres of the very finest loam soil in Baltimore County; it is rolling land with perfect drainage and an ideal location for thrifty growth of plant material.

AN IDEA

In presenting this price-list, we want also to give you an idea of the service we can render. Except as a measure of advantages derived, cost means nothing. Without the organization back of this list, workers with a sincere desire to excel in the things they do, men trained for their work by knowledge and experience, without proper attention to important detail in the production of good trees and plants, these prices would mean nothing to you. Knowing this organization as we do, its personnel and its ideals, we can say in all sincerity, "Come to Towson Nurseries if you want the best."

WHERE landscape operations are contemplated, the services of a landscape architect should be engaged. Knowing members of the profession in many localities, we are able to put you in touch with them, and they can solve your problems with skill and good taste.
